Rider Tacked To Loan Fund Measure Insures Concrete Base For Belt Road

FIGHT AGAINST OFFICES FOR TERRITORY IS DEFEATED

Civic Center Arguments As Presented By Shingle Win Office **Building Appropriation**

Tacked to the Loan Fund Bill as it assed the senate on third reading exterdny and now goes to the house is a rider drafted by Senator Castle specifying that "said road shall be uilt of concrete or with a concrete

The application of the rider is to the belt road around Oahu, beginning at the foot of the Pali, or as far down the Pali as the city may have carried the work now under way when funds shall become available, and extending as far toward Hajeiwa as \$500,000 will have to the part of the pale of t

the work now under way when funds shall become available, and extending as far toward Hajeiwa as \$500,000 will carry it. Senator Shingle, chairman of the ways and means committed, which framed the bill, said he didn't think that would be as far as Kahuha. President Chillingworth was insistent that, if the city and county were to assume the obligation of the bonds as the hill provides, only permanent construction should be employed. He called up the phantom \$10,000 n mile apent not so many years ago on what med to be the belt road. The road is now gone, but the debt remains He had heard that the superintended of public works believed asphalt macadam was good enough, and the thought worried him.

Senator Shingle was agreeable to defering the hill until it could be amended, but Senator Castle said he believed it wouldn't take five minutes to add a provise that would make permanent construction certain while, at the same time, leaving all technical specifications to the engineers.

An offered for third reading, the hill provided that the city or county in which roads are built out of loan funds shall manume the interest of the bonds and lay uside, a sinking fund; that the plans shall be drawn by the city or county shall let the contracts; but that the plans and specifications shall be approved by a commission of three engineers to be appointed by the Governer, and that the compensation of these onglucers shall be twenty-five follures a day, for the time they are actually employed, provided that, if hay are in city, county or terriform maploy, they shall draw no pay what over.

Senator Castle offered another amendment to this provise, stipulating that

"It is the desire of the Philippine councreial interests," stated Senor de Teyra, last night, "to have established setween Manila and the count of America a direct steamer live devoting its entire service to the Islands, ind making as few stops as possible between the Philippine and the American port. Every effort will be made to stablish this line and while I am leaving most commercial matters in Washington to my colleague, Teodoro R. Vangeo, I am greatly interested in this project and will do exarything I can to writher it.

"It has been proposed to run this line irrectly between Manila and San Pranisco, tourhing Honolulu and Guam, or nore preferably just one of these ports, in that case Honolulu, with its greater ommercial interests, would undoubtedly he selected. The idea is to secure i line that will establish the quickest cossible connection.
